

# Happy 125th Anniversary to Each and Everyone of You

## TO ALL ENLISTED MEDICAL CORPS SOLDIERS

March 1<sup>st</sup> celebrates the Enlisted Medical Corps Anniversary (formerly known as the Hospital Corps). This year's theme is: **“A History of Strength, Service and Honor.”**

AMEDD Enlisted Soldiers have been providing quality care and selfless service to our Soldiers, Family members and other beneficiaries for 125 years. The Army Medic is the **backbone** of the AMEDD! From our origins, AMEDD Enlisted Soldiers have earned the deep respect and gratitude of the American people because of their dedication in providing the best possible care to our Soldiers and their families.

Army Medical Soldiers have unselfishly come to the aid of victims of disaster and disease throughout the world. Their steadfast loyalty and commitment to duty have left an indelible mark on those they've touched. As Soldiers stand point for our nation, defending freedom across the globe, they can rest assured, should they get wounded or ill, an Army Medical Soldier will be by their side providing world-class healthcare!

The Army Enlisted Medical Corps' professional evolution reflects not only the requirement of a transformational Army, but also expanded roles in health care. After a decade of persistent conflict, the Enlisted Medical Corps has rededicated its commitment to the Army, its ideals, traditions and ethos. We are **“Army Medic Strong”**.

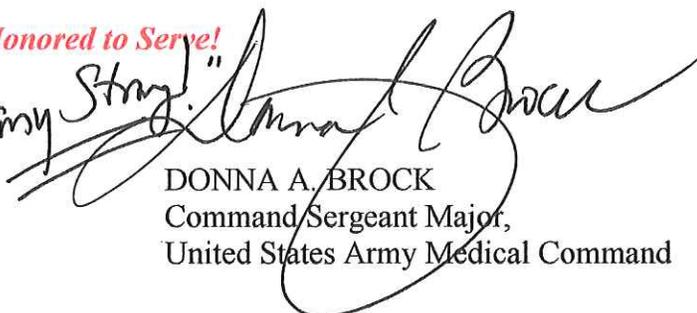

Over time, the Army's mission has grown broader, yet there has been one constant – the devotion of the individual Army Medical Soldier in providing excellent healthcare. As we continue into the future, we will continue to grow and improve our processes and technical skills as proven by the creation of the Medical Education Training Campus (METC) in collaboration with our sister services in a joint environment of learning, training, and partnerships.

Army Medical Soldiers provide **Responsible, Reliable and Relevant** healthcare to those in need.

**Happy Anniversary Medics!!! You Rock! I'm proud to be part of our Corps!!**

*Army Medicine: Serving to Heal...Honored to Serve!*

*“Army Strong!”*
