We would like to present to you an advanced-level education opportunity from the US Army, the HM-CBRNE course. It offers healthcare professionals state-of-the-art instruction that may save lives in a major WMD incident. Designed for civilian and military healthcare managers and providers, it is presented by some of the nation's leading authorities in biological, chemical, and radiation incident management.

This course was developed with hospital level objectives – clinical and non-clinical. It features interactive seminar discussions and dynamic exercises. The HM-CBRNE course is intended to help mitigate the existing gaps in support of hospital operations during a major WMD event. Additionally, it benefits all other routine and crisis hospital operations. It also provides a great opportunity to meet other professionals from across the nation who face the same challenges you do.
